Traffic Jam

Aim:

Find your way from opening in the frame to the other.

Parts of the maze:

- Small vertical lines: parking spots.
- Dotted rectangles: vehicles (a vehicle can take multiple parking spots).

Rules:

1. To pass a vehicle, 'slide' it right or left, as long as there are empty parking spots next to it.
2. One vehicle can't push another one, you will need to move them separately.
3. You have only 5 'slides', one vehicle can be slid twice but that is counted as two slides.

HINT: You can solve the maze from one direction only.
